

SPRING CLEANING AUTO CHECKLIST

Pick up trash.

Make sure the first thing you do is pick up all of the trash on the inside of your vehicle and place a bag that can serve as a trashcan in your car for future use.

Shake out mats.

Remove all large pieces of trash or debris from the floor mats of your car. After, take all of the mats out of your car, shake them out in an open area, and then lay them in a clean spot.

Clean vents and ducts.

The best way to do this is with pressurized air, but if you don't have it you can use a dusting cloth or a wet wipes.

Vacuum.

Try and get every part of your vehicle that you can, this includes floorboards, seats, under the seats, trunk, cup holders, and any other space that is large enough. Don't forget to do the mats!

Organize.

If you have certain items that you keep in your car at all times, like sports equipment; take it out, clean it, and make a special place for it that will not cause clutter or take up too much space.

Wipe down.

Use a wet wipe or dusting cloth to clean and wipe down your dash, front console, and anywhere else that dirt can hide. If you would like to go an extra step you can detail your dash by using a microfiber cloth and some polish or dashboard wipes.

Use an air freshener.

After your car is clean from top to bottom change out your air freshener to a nice spring scent and you are good to go!
