

# Ways to Protect Your Car From These

## SUMMER DRIVING DANGERS

### TIRE DAMAGE

- ✓ With the temperature changes, check your tire pressure every few weeks
- ✓ Make sure you carry a spare tire

### ENGINE OVERHEATING

- ✓ Get regularly scheduled oil changes
- ✓ Frequently check coolant levels
- ✓ Replace old belts and hoses

**PROTECT  
YOUR CAR  
ON & OFF  
THE ROAD**

### WEAKENED BATTERY

- ✓ Park in the shade
- ✓ Keep your battery clean
- ✓ Limit short trips
- ✓ Avoid using electronics when the engine is off
- ✓ Make sure battery heat barrier is in place

### FLUID LEAKS

- ✓ Keep car in the shade
- ✓ Consistently check fuel levels
- ✓ Replace old hoses and belts
- ✓ Continue routine maintenance
- ✓ If you notice fluid under your car seek service

### INTERIOR & EXTERIOR DAMAGE

- ✓ Park in the shade or a garage
- ✓ Install covers on seats and steering wheel
- ✓ Use detailing products to eliminate dust
- ✓ Wash and dry vehicle often
- ✓ Wax your vehicle for added protection
