Simple Water Safety Tips

- 1 Maintain constant supervision whenever children are in or near water.
- 2 Teach your child how to swim or give them a life jacket.
- 3 Teach children to stay away from drains, pipes, and other openings.
- 4 Never let your child swim alone.
- 5 Teach your kids the “Rules of the Pool”.
- 6 Keep your pool clean and clear with the proper chemicals.
- 7 Create barriers for your pool that will reduce the risk of a slip or fall.
- 8 Educate yourself on what real drowning looks like and how to spot it.
- 9 Learn CPR and know when to call 9-1-1.
