

FIREWORK SAFETY for pets

KEEP INDOORS

Even calm pets can get spooked by loud fireworks. Bring them inside.

SAFE SPACE

Move them to a room and put on the TV or music, and cover the windows.

ID TAGS

In case your pet gets out, make sure they're wearing their updated ID tags.

DISTRACT

Give them a new toy or treat to help take their mind off of the noise.

EXERCISE

Wear them out before the festivities, so they can sleep through the noise.

USE PRODUCTS

If nothing helps, try using calming products like medicines or vests.
